For SIMATIC-Integration: SIMATIC S7 as of Version 5.4 SP2
For projecting SIMATIC HMI: WinCC flexible Edition 2005 SP1 HF7
For the Device Manual: Acrobat Reader Version 5.0

3 Installation

3.1 Installation of the SIWAREX U module in SIMATIC S7 Hardware Catalogue

If you can not find SIWAREX U in the SIMATIC Manager the SIWAREX U module must first be inserted in the HW catalogue. Select the function "Install HW updates" from the „Tools" menu. Then select „Install from file". The file for updating the SIWAREX U module is located in the HSP_FOR_SIWAREX U directory of the SIWAREX U configuration package for S7

3.2 Installation of SIWATOOL U

Close all Windows applications before beginning the installation.
The SiwatoolU.exe program is found in the SIWATOOL_U directory. After its execution, SIWATOOL U can be called up as a WINDOWS application.

3.3 Installation of the STEP 7 Software - Getting started

Two example programs should enable a quick familiarisation with configuration of the SIWAREX U. They are found in the directories SIWAREX_U_GETTING_STARTED. Use the "Retrieve" function in the SIMATIC Manager for decompressing the project.
Check www.siemens.com/siwarex, whether newer versions of the example programs or other example programs are available.

4 Up-to-date Information/Hotline
